

12:59:34 From Marta Blanco Castano (CWCB) to Everyone : Attendee Sign In Sheet:
<https://1drv.ms/x/s!AiiZcwnRoqmFpG5Ea5lXNFUdbPG?e=uM8t7L>

13:02:16 From Marta Blanco Castano (CWCB) to Everyone : Attendee Sign In Sheet:
<https://1drv.ms/x/s!AiiZcwnRoqmFpG5Ea5lXNFUdbPG?e=uM8t7L>

13:06:10 From Jeremy Hamer (Denver) to Everyone : I see there is now a V3 document, will there be a V4 after this meeting?

13:06:41 From Marta Blanco Castano (CWCB) to Everyone : @ Jeremy, yes, we will produce a new version after this meeting

13:07:19 From Marta Blanco Castano (CWCB) to Everyone : Attendee Sign In Sheet:
<https://1drv.ms/x/s!AiiZcwnRoqmFpG5Ea5lXNFUdbPG?e=uM8t7L>

13:07:27 From Jeremy Hamer (Denver) to Everyone : Once V4 is posted, could you please send word doc for redlines (or post on website)?

13:07:42 From Marta Blanco Castano (CWCB) to Everyone : @ Jeremy - absolutely

13:07:57 From Jeremy Hamer (Denver) to Everyone : Thanks!

13:08:08 From Marta Blanco Castano (CWCB) to Everyone : <https://cwcb.colorado.gov/floodplain-rules-revisions>

13:08:14 From Monica Bortolini to Everyone : Monica Bortolini - City of Longmont Floodplain Administrator

13:09:04 From Mark Westberg to Everyone : Mark Westberg City of Wheat Ridge

13:14:18 From Christina Stanton to Everyone : Christina Stanton, AICP, Director of Community & Development Services for Elbert County

13:32:46 From Matt Jones to Everyone : What would the change be to?

13:34:35 From Matt Jones to Everyone : Would the change be "moderate to high Flood Hazard"?

13:36:39 From Carolyn Roan to Everyone : I vote to strike it.

13:36:47 From Monica Bortolini to Everyone : I say leave it in. It is the general definition of the 500-year.

13:37:02 From Matt Jones to Everyone : Leave it in

13:37:47 From Monica Bortolini to Everyone : Ya I like that revision!

13:37:58 From Matt Jones to Everyone : That works

13:37:59 From carrie gudorf to Everyone : I like it

13:38:00 From Carolyn Roan to Everyone : typically moderate sounds ok

13:43:18 From Marsha Hilmes-Robinson (City of Ft. Collins) to Everyone : I have a question about Rule 11 B 2a

13:46:24 From Nicole Mosby to Everyone : yes

13:46:41 From Matt Jones to Everyone : Yeah, I'm comfortable

13:47:44 From Jeremy Hamer (Denver) to Everyone : good catch Marsha!

13:55:55 From Monica Bortolini to Everyone : Good change I think

14:00:45 From Monica Bortolini to Everyone : Its important to keep up the effective maps. If other projects caused a change and weren't LOMRed then it might be the communities responsibility rather than a small projects responsibility to do the LOMR.

14:00:57 From Matt Jones to Everyone : "...unless the grade will be returned to preproject state..."

14:02:35 From Carolyn Roan to Everyone : for utility trench projects I just ask for a no rise cert/letter not modeling...so this wouldn't get triggered...

14:05:10 From Matt Jones to Everyone : Less than 0.1 acres of disturbance?

14:07:11 From Carrie Herbolsheimer to Marta Blanco Castano (CWCB)(Direct Message) : I agree with these points that projects will potentially get unfairly dinged when they try to do the right thing and cause zero rise vs existing conditions but changes have happened prior to the project.

14:07:18 From Monica Bortolini to Everyone : I've had to require a LOMR for CIP projects that weren't able to show no rise.

14:10:54 From Monica Bortolini to Everyone : Marsha what about impacting existing structures? You have to check that too if filling.

14:11:22 From Monica Bortolini to Everyone : I do require modeling in the fringe to check for impacts to existing structures.

14:11:49 From Carolyn Roan to Everyone : Littleton requires modeling for floodfringe if other structures may be impacted by any rise.

14:15:10 From Monica Bortolini to Everyone : Monica Bortolini would like to participate in that workshop as well. I couldn't find my mute button fast enough.

14:22:50 From Matt Jones to Everyone : Maintain a living model?

14:26:42 From Carrie Herbolsheimer to Everyone : Are non-dam features defined in rule 4 or in the incorporation by reference?

14:28:57 From Terri Fead (CWCB) to Everyone : Non-dam features are defined in the external references.

14:29:59 From Monica Bortolini to Everyone : yes

14:30:23 From Carolyn Roan to Everyone : i prefer to wait if possible to prepare more

14:35:23 From Matt Jones to Everyone : Thank you!

14:35:24 From Jeremy Hamer (Denver) to Everyone : Thanks CWCB!

14:35:29 From Andy Stewart to Everyone : Thanks!
